Report of Independent Auditors

To the Board of Directors and Shareholders of Samsung Electronics Co., Ltd.

We have audited the accompanying non-consolidated balance sheets of Samsung Electronics Co., Ltd. (the "Company") as of December 31, 2004 and 2003, and the related non-consolidated statements of income, appropriations of retained earnings and cash flows for the years then ended, expressed in Korean won. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the Republic of Korea. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the non-consolidated financial statements referred to above present fairly, in all material respects, the financial position of Samsung Electronics Co., Ltd. as of December 31, 2004 and 2003, and the results of its operations, the changes in its retained earnings and its cash flows for the years then ended in conformity with accounting principles generally accepted in the Republic of Korea.

SAMIL PRICEWATERHOUSE COOPERS

Without qualifying our opinion, we draw your attention to the following matters.

As discussed in Note 17 to the accompanying non-consolidated financial statements, the Company and 30 other Samsung Group affiliates (the "Affiliates") entered into an agreement with the institutional creditors (the "Creditors") of Samsung Motors Inc. ("SMI") in September 1999. In accordance with this agreement, the Company and the Affiliates agreed to sell 3,500,000 shares of Samsung Life Insurance Co., Ltd., which were previously transferred to the Creditors in connection with the petition for court receivership of SMI by December 31, 2000. In the event that the sales proceeds fall short of \$\forall 2,450,000\$ million, the Company and the Affiliates have agreed to compensate the Creditors for the shortfall by other means, including the participation in any equity offering or subordinated debentures issued by the Creditors. The amount of overdue interest due to the default of the agreement is to be reimbursed by the Company and the Affiliates. Any excess proceeds over \$\forall 2,450,000\$ million are to be distributed to the Company and the Affiliates. As of the date of this report, the shares of Samsung Life Insurance Co., Ltd. have not yet been sold. As of the balance sheet date, the ultimate effect of these matters on the financial position of the Company cannot presently be determined.

As discussed in Note 26 to the accompanying non-consolidated financial statements, the Company had sales to, and purchases from, subsidiaries and affiliated companies within the Samsung Group amounting to \$\footnote{W}2,379,191\$ million and US\$37,983,923 thousand, and \$\footnote{W}11,052,972\$ million and US\$9,135,020 thousand, respectively, during the year ended December 31, 2004, and the related accounts receivable and accounts payable as of December 31, 2004 amounted to \$\footnote{W}940,170\$ million and US\$382,382 thousand, and \$\footnote{W}1,847,781\$ million and US\$607,950 thousand, respectively.

The amounts expressed in U.S. dollars, provided solely for the convenience of the reader, have been translated on the basis set forth in Note 3 to the accompanying non-consolidated financial statements.

Accounting principles and auditing standards and their application in practice vary among countries. The accompanying non-consolidated financial statements are not intended to present the financial position, results of operations and cash flows in conformity with accounting principles and practices generally accepted in countries and jurisdictions other than the Republic of Korea. In addition, the procedures and practices used in the Republic of Korea to audit such financial statements may differ from those generally accepted and applied in other countries. Accordingly, this report and the accompanying non-consolidated financial statements are for use by those who are knowledgeable about Korean accounting principles or auditing standards and their application in practice.

2. Summary of Significant Accounting Policies

The significant accounting policies followed by the Company in the preparation of its non-consolidated financial statements are summarized below:

Basis of Financial Statement Presentation

The Company maintains its accounting records in Korean won and prepares statutory financial statements in the Korean language in conformity with accounting principles generally accepted in the Republic of Korea. Certain accounting principles applied by the Company that conform with financial accounting standards and accounting principles in the Republic of Korea may not conform with generally accepted accounting principles in other countries. Accordingly, these financial statements are intended for use by those who are informed about Korean accounting principles and practices. The accompanying non-consolidated financial statements have been condensed, restructured and translated into English from the Korean language non-consolidated financial statements. Certain information attached to the Korean language non-consolidated financial statements, but not required for a fair presentation of the Company's financial position, results of operations or cash flows, is not presented in the accompanying non-consolidated financial statements.

Application of the Statements of Korean Financial Accounting Standards

The Korean Accounting Standards Board has published a series of Statements of Korean Financial Accounting Standards ("SKFAS"), which will gradually replace the existing financial accounting standards established by the Korean Financial and Supervisory Board. SKFAS No. 2 through No. 9 became effective on January 1, 2003. In addition, the Company opted for an early adoption of SKFAS No. 10, "Inventories", for the fiscal year 2003. And as SKFAS Nos. 12 and 13 became applicable to the Company in January 1, 2004, the Company adopted these statements in its financial statements as of and for the year ended December 31, 2004.

Use of Estimates

The preparation of the financial statements requires management to make estimates and assumptions that affect amounts reported therein. Although these estimates are based on management's best knowledge of current events and actions that the Company may undertake in the future, actual results may differ from those estimates.

Cash, Cash Equivalents and Short-Term Financial Instruments

Cash and cash equivalents include cash on hand and in bank accounts, with original maturities of three months or less. Investments which are readily convertible into cash within four to 12 months of purchase are classified in the balance sheet as short-term financial instruments. The cost of these investments approximates fair value.

Marketable Securities

Investments in equity securities or debt securities are classified into trading securities, available-for-sale securities and held-to-maturity securities, depending on the acquisition and holding purpose. Trading securities are classified as current assets; while available-for-sale securities and held-to-maturity securities are classified as long-term investments, except that those securities that mature or are certain to be disposed of within one year are classified as current assets.

Cost is measured at the market value upon acquisition, including incidental costs, and is determined using the average cost method.

Available-for-sale securities are stated at fair value, while non-marketable equity securities are stated at cost. Unrealized holding gains and losses on available-for-sale securities are reported in a separate component of shareholders' equity (capital adjustments), which are to be included in current operations upon the disposal or impairment of the securities. In the case of available-for-sale debt securities, the difference between the acquisition cost after amortization using the effective interest rate method and the fair value is reported in capital adjustments.

Impairment resulting from the decline in realizable value below the acquisition cost (after amortization) are included in current operations.

Equity-Method Investments

Investments in business entities in which the Company has a control or the ability to exercise significant influence over the operating and financial policies are accounted for using the equity method of accounting.

Under the equity method, the original investment is recorded at cost and adjusted by the Company's share in the net book value of the investee with a corresponding charge to current operations, a separate component of shareholders' equity, or retained earnings, depending on the nature of the underlying change in the net book value. All significant unrealized profits resulting from intercompany transactions of inventories and property, plant and equipment are fully eliminated.

Differences between the investment account and corresponding capital account of the investee at the date of acquisition of the investment are recorded as part of investments and are amortized over five years using the straight-line method. However, differences which occur from additional investments made after the Company has control in its subsidiaries are reported in a separate component of shareholders' equity, and are not included in the determination of the results of operations.

Assets and liabilities of the Company's foreign investees are translated at current exchange rates, while income and expense are translated at average rates for the period. Adjustments resulting from the translation process are reported in a separate component of shareholders' equity, and are not included in the determination of the results of operations.

The equity-method investments are accounted for based on unaudited or unreviewed financial statements of the equity-method investees since the audit or review procedures for most of these entities are not yet completed as of the date of this audit report.

Allowance for Doubtful Accounts

The Company provides an allowance for doubtful accounts and notes receivable based on the aggregate estimated collectibility of the receivables.

Inventory Valuation

Inventories are stated at the lower of cost or net realizable value. Cost is determined using the average cost method, except for materials-in-transit which are stated at actual cost as determined using the specific identification method. Losses on valuation of inventories and losses on inventory obsolescence are recorded as part of cost of sales.

Property, Plant and Equipment and Related Depreciation

Property, plant and equipment are stated at cost, except for certain assets subject to upward revaluation in accordance with the Asset Revaluation Law of Korea. The revaluation presents production facilities and other buildings at their depreciated replacement cost, and land at the prevailing market price, as of the effective date of revaluation. The revaluation increment, net of revaluation tax, is first applied to offset accumulated deficit and deferred foreign exchange losses, if any. The remainder may be credited to other capital surplus or transferred to common stock. A new basis for calculating depreciation is established for revalued assets.

Depreciation is computed using the straight-line method over the following representative estimated useful lives:

Description	Estimated useful lives
Buildings and auxiliary facilities	15, 30 years
Structures	15 years
Machinery and equipment	5 years
Tools and fixtures	5 years
Vehicles	5 years

Maintenance and Repairs

Routine maintenance and repairs are charged to expense as incurred. Expenditures which enhance the value or extend the useful life of the related assets are capitalized.

Intangible Assets

Intangible assets are amortized on a straight-line basis over the following estimated useful lives:

Description	Estimated useful lives
Goodwill	5 years
Intellectual property rights	10 years
Other intangible assets	5 years

Lease Receivables

A lease which has substantially non-cancelable terms, and transfers the benefits and risks incidental to ownership from lessor to lease is classified as a financing lease. All other leases are classified as operating leases.

Financing lease receivables are recorded as fair value. Accrued interest is recognized over the lease period using the effective interest rate method.

Discounts and Premiums on Debentures

The difference between the face amount and the proceeds upon the issuance of the debenture is treated as either a discount or premium of the debenture, which is amortized over the term of the debenture using the effective interest rate method. The discount or premium is reported in the balance sheet as a direct deduction from or addition to the face amount of the debenture. Amortization of the discount or premium is treated as part of interest expense.

Stock and Debenture Issuance Costs

Stock issuance costs are charged directly to paid-in capital in excess of par value. Debenture issuance costs are recorded as a reduction of the proceeds from the issuance of the debenture.

Government Grants

Government grants received for the development of certain technologies are recorded as accrued income, and offset against relevant development costs as they are incurred.

Accrued Severance Benefits

Employees and directors with at least one year of service are entitled to receive a lump-sum payment upon termination of their employment with the Company based on their length of service and rate of pay at the time of termination. Accrued severance benefits represent the amount which would be payable assuming all eligible employees and directors were to terminate their employment as of the balance sheet date.

A portion of the accrued severance benefits of the Company are funded through a group severance insurance plan with Samsung Life Insurance Co., Ltd., and the amounts funded under this insurance plan are classified as a deduction from the accrued severance benefits liability. Subsequent accruals are to be funded at the discretion of the Company.

In accordance with the National Pension Act, a certain portion of the accrued severance benefits is deposited with the National Pension Fund and deducted from the accrued severance benefits liability.

Revenue Recognition

Sales of products and merchandise are recognized upon delivery.

Foreign Currency Translation

Assets and liabilities denominated in foreign currencies are translated into Korean won at the rate of exchange in effect as of the balance sheet date. Gains and losses resulting from the translation are reflected as either income or expense for the period.

Foreign currency convertible debentures are translated at the exchange rate that will be used at the time of conversion as prescribed in the terms of such debentures.

Income Tax Expense

Income taxes are accounted for under the asset and liability method. Deferred income tax assets and liabilities are recognized for the estimated future tax consequences attributable to the differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, and operating loss and tax credit carry-forwards.

Long-Term Receivables and Payables

Long-term receivables and payables that have no stated interest rate or whose interest rate is different from the market rate are recorded at their present values. The difference between the nominal value and present value of the long-term receivables and payables is amortized using the effective interest rate method with interest income or expense adjusted accordingly.

Stock-Based Compensation

The Company uses the fair-value method in determining compensation costs of stock options granted to its employees and directors. The compensation cost is estimated using the Black-Scholes option-pricing model and is accrued as a charge to expense over the vesting period, with a corresponding increase in a separate component of shareholders' equity as other capital adjustments.

Earnings Per Share

Basic earnings per share are calculated by dividing net income available to common shareholders by the weighted-average number of common shares outstanding during the period. Diluted earnings per share is calculated using the weighted-average number of common shares outstanding adjusted to include the potentially dilutive effect of convertible bonds.

Product Warranties

The Company accrues the estimated cost of warranty including future repairs and other services at the time of sale.

Asset Impairment

When the book value of an asset is greater than its recoverable value due to obsolescence, physical damage or the abrupt decline in the market value of the asset, the decline in value, if material, is deducted from the book value and recognized as an asset impairment loss in the current period.

3. United States Dollar Amounts

The Company operates primarily in Korean won and its official accounting records are maintained in Korean won. The U.S. dollar amounts, provided herein, represent supplementary information solely for the convenience of the reader. All won amounts are expressed in U.S. dollars at the rate of \$1,043 to US\$1, the exchange rate in effect on December 31, 2004. Such presentation is not in accordance with generally accepted accounting principles in either the Republic of Korea or the United States, and should not be construed as a representation that the won amounts shown could be readily converted, realized or settled in U.S. dollars at this or at any other rate.

The 2003 U.S. dollar amounts, which were previously expressed at \W1,197 to US\$1, the rate in effect on December 31, 2003, have been restated to reflect the exchange rate in effect on December 31, 2004.

4. Cash Subject to Withdrawal Restrictions

As of December 31, 2004 cash in banks amounting to \$\pmu25,123\$ million (2003: \$\pmu20,020\$ million) are subject to withdrawal restrictions in relation to government-sponsored research and development projects and other activities.

17. Commitments and Contingencies

As of December 31, 2004, the Company is contingently liable for guarantees of indebtedness, principally for related parties, approximating ₩8,721 million and US\$559,246 thousand.

As of December 31, 2004, the Company has technical assistance agreements with certain companies. Total royalty expense incurred in relation to these agreements for the year ended December 31, 2004 amounted to \W1,281,356 million (2003: \W1,213,627 million).

As of December 31, 2004, the Company has a bank overdraft facility agreement with Hana Bank and six other banks with a maximum limit of \$195,000 million.

As of December 31, 2004, the Company has an agreement to discount trade notes receivable with three Korean banks, including Korea First Bank up to \$\foatledge{W}150,000\$ million; a credit sales facility agreement with five Korean banks, including Woori Bank; and a factoring agreement for accounts receivable with Korea Exchange Bank up to \$\foatledge{W}150,000\$ million. In relation to the credit sales facility agreement with Woori Bank, the Company has recourse obligation on the receivables of which the due dates are extended. In addition, the Company also has collateral loan agreements on accounts receivable with four banks, including Woori Bank up to \$\foatledge{W}1,000,000\$ million.

Pursuant to the contracts made with foreign affiliated and subsidiary companies, the Company is obliged to compensate for certain amounts of uncollectible receivables of foreign affiliated and subsidiary companies if certain conditions, such as the refusal of payment from a trading partner, are fulfilled. The Company has insured against such compensation with Korea Export Insurance Co. as of December 31, 2004.

The Company and 30 other Samsung Group affiliates (the "Affiliates") entered into an agreement with the institutional creditors (the "Creditors") of Samsung Motors Inc. ("SMI") in September 1999. In accordance with this agreement, the Company and the Affiliates agreed to sell 3,500,000 shares of Samsung Life Insurance Co., Ltd., which were previously transferred to the Creditors in connection with the petition for court receivership of SMI by December 31, 2000. In the event that the sales proceeds fall short of W2,450,000 million, the Company and the Affiliates have agreed to compensate the Creditors for the shortfall by other means, including the participation in any equity offering or subordinated debentures issued by the Creditors. The amount of overdue interest due to the default of the agreement is to be reimbursed by the Company and the Affiliates. Any excess proceeds over W2,450,000 million are to be distributed to the Company and the Affiliates. As of the date of this report, the shares in Samsung Life Insurance Co., Ltd. have not yet been sold. As of the balance sheet date, the ultimate effect of these matters on the financial position of the Company could not presently be determined.

As of December 31, 2004, the Company has been named as the defendant in 11 legal actions filed by MOSAID Technologies Inc., Matsushita Electric Industrial Co., Ltd., S.I.SV.EL.S.P.A, International Rectifier Corporation, Commissariat A L'Energie Atomique, Magnequench Inc., QinetiQ Limited, Shalom Ohayon, ITT Manufacturing Inc., 02 Micro International Limited and St. Clair Intellectual Property Consultants, Inc. for patent infringements, and as a plaintiff in four legal actions against Quanta Computer, Compal Electronics, Inc., Inventec Corporation and Twinhead Corporation for alleged patent infringements.

As of December 31, 2004, a derivative suit is pending against the Company's former and present executives relative to their decision to dispose of Samsung General Chemicals Co., Ltd. at a low price and for other allegations.

Considering the legal cases mentioned above and various other claims and proceedings pending as of December 31, 2004, the Company's management believes that, although the outcome of these matters are uncertain, the resolution of these matters will not have a material adverse effect on the operations or financial position of the Company.

The subsidiary company, Samsung Semiconductor Inc. (SSI) is being investigated by the Department of Justice in the U.S.A. regarding possible antitrust violations in the DRAM (Dynamic Random Access Memory) industry. Subsequent to the commencement of the investigation, a number of lawsuits were filed against the Company and SSI. As of the balance sheet date, SSI has established provision amounting to US\$100,000 thousand for any potential loss. The Company's management believes that, although the outcome of the investigation is uncertain and could differ from the current estimation, the resolution of the matters will not have a material adverse effect on the operations or financial position of the Company.

18. Capital Stock

Under its Articles of Incorporation, the Company is authorized to issue 500 million shares of capital stock with a par value of \$\pm\$5,000 per share, of which 100 million shares are cumulative, participating preferred stock and are non-voting and entitled to a minimum cash dividend at 9% of par value. In addition, the Company is authorized to issue to investors, other than current shareholders, convertible debentures and debentures with warrants with face values up to \$\pm\$4,000 billion and \$\pm\$2,000 billion, respectively. The convertible debentures amounting to \$\pm\$3,000 billion and \$\pm\$1,000 billion are assigned to common stock and preferred stock, respectively. The debentures with warrants amounting to \$\pm\$1,500 billion and \$\pm\$500 billion are assigned to common stock and preferred stock, respectively

The Company is also authorized, subject to the Board of Directors' approval, to issue shares of common or preferred stock to investors other than current shareholders for issuance of depository receipts, general public subscription, urgent financing with financial institutions, and strategic alliance.

The Company is authorized, subject to the Board of Directors' approval, to retire treasury stock in accordance with applicable laws up to the maximum amount of certain undistributed earnings. The 2,150,000 shares of common stock and 330,000 shares of non-voting preferred stock (with an acquisition cost of \$1,046,818 million) were retired on January 15, 2004, with the Board of Directors' approval. Moreover, 3,060,000 shares of common stock and 260,000 shares of non-voting preferred stock (with an acquisition cost of \$1,978,310 million) were retired on May 4, 2004, with the Board of Directors' approval (Note 21).

The Company has issued global depositary receipts ("GDR"), representing certain shares of non-voting preferred stock and common stock, for direct funding at overseas stock markets, as follows:

	Number of	Number of
	Shares of Stock	Shares of GDR
Non-voting preferred stock	7,695,272	15,390,544
Common stock	4,251,338	8,502,678

In addition to the above issuances, there have been several conversions of foreign currency convertible bonds into GDRs and conversions of the issued GDRs into original shares of common stock or non-voting preferred stock.

As of December 31, 2004, outstanding global depositary receipts consist of 30,307,378 shares for common stock (common stock equivalent: 15,153,939 shares) and 9,980,612 shares for non-voting preferred stock (preferred stock equivalent: 4,990,306 shares).

The Company issued 454,471 shares of common stock upon the conversion of foreign currency convertible bonds amounting to US\$42,025 thousand during the year ended December 31, 2004 (Note 15). The cash proceeds in excess of par value amounting to \$\footnote{W}46,995\$ million were credited to paid-in capital in excess of par value.

As of December 31, 2004, exclusive of retired stocks, 147,299,337 shares of common stock and 22,833,427 shares of preferred stock have been issued. The preferred shares, which are non-cumulative and non-voting, were all issued on or before February 28, 1997, and are entitled to an additional cash dividend of 1% of par value over common stock.

The par value of capital stock differs from paid-in capital since the retirement of capital stock was recorded as a deduction from retained earnings.

19. Retained Earnings

	Number of Shares	Weight	Common S	Stock Equivalent			
Stock options	2,249,305	366/366	₩	2,249,305			

The number of dilutive shares of outstanding stock options is computed by applying the treasury stock method.

Under the treasury stock method, the proceeds from the exercise of the stock options are assumed to be used to purchase common stock at the average market price. The incremental shares which is the difference between the number of shares assumed to be issued and the number of shares assumed to be purchased, is included in the denominator of the diluted earnings per share computation.
